1. FEATURES OF KANGAROOLIGHT ™

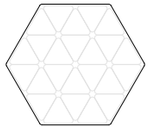
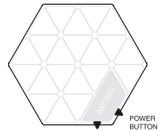
FRONT



BACK



USB
CONNECTOR

Includes pre-set light moods / App controllable / Wireless connectivity /
Personalization options / Sound sensitive through app /
Light alarms through app / Open firmware

2. KANGAROOLIGHT ™ APP AND PERSONALIZATION

Wireless connectivity to smart phone and tablet allows you to manage and make the most of your KANGAROOLIGHT ™. Visit the app store to download our Free app “ KANGAROOLIGHT ” to your phone or tablet (Android and iphone), which will allow you to personalize and control light settings, discover your own lighting preferences and create new light moods. There are options to set and synchronize light moods with phone alarm settings and also integrate sound activation of the KANGAROOLIGHT ™.

KANGAROOLIGHT ™ has an open firmware which opens a whole new world of options to developers.

3. HOW DOES KANGAROOLIGHT ™ WORK?

- **Turn On / Off** Press the power button for 2 secs
- **Changing Light Settings** Press power button once
- **Pairing Wireless Connectivity** The product can be paired to your smartphone or tablet whenever it is on.

4. HOW DO I CHARGE KANGAROOLIGHT ™ ?

When the battery level is low the facet closest to the micro USB port will start pulsing slowly at a 50% light intensity. To enable charging, plug the USB cable onto a computer and the micro USB end onto the KANGAROOLIGHT ™. The facet closest to the micro USB port will start pulsing slightly faster during recharging and will emit constant light once the battery is fully charged. Battery life level will be indicated on your phone once you have downloaded app.
